

Trade Fair Offer Joint Booth

The leading International Composites Show
May, 03.-05., 2022
Paris Nord-Villepinte

JOINED BOOTH OF CU

Fusion Carbon Composites & CFK Valley

Thanks to the merger of Carbon Composites e. V. and CFK Valley e. V., Composites United e. V. has become one of the largest global networks for fiber-based, multi-material lightweight construction. With concentrated strength and now over 400 members, we promote and support innovative technologies across all industries, network our partners and act as a mouthpiece for politicians.

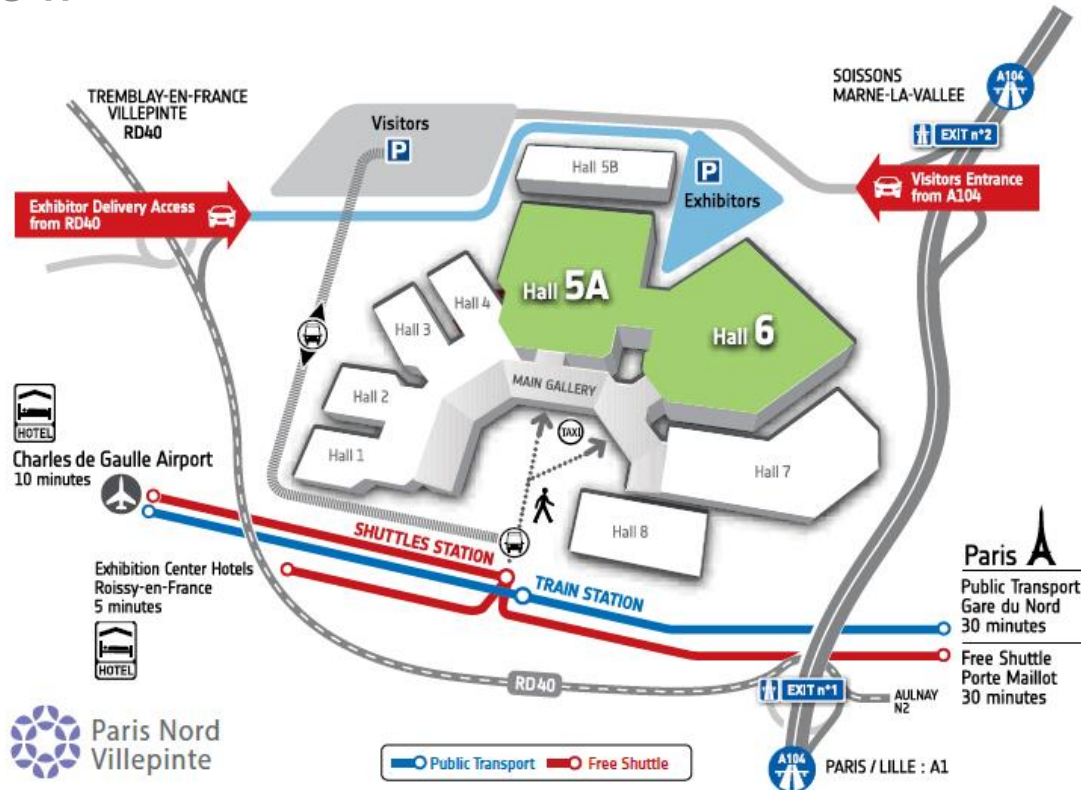

Since this was not possible in 2020 and 21, we are therefore presenting ourselves at JEC 2022 in a completely new guise on a stand area twice as large as in previous years. We are pleased to offer you the opportunity to be a co-exhibitor at the Composites United booth! With a top location in hall 6 and the new stand size, we want to present the new association in a festive way and also let you as a co-exhibitor benefit from the corresponding attention.

Since space is limited despite the larger area, don't hesitate any longer and book your presence at JEC 2022 now!

Enclosed you will find some impressions and more details.
