

## Working Group „Sustainability“ – Kick-off organized by CU Nord and CU Ost

on **28th June 2023**  
online at **CU MixUp.World**

The Working Group “Sustainability” of the Composites United Network is the exchange platform for all relevant sustainability topics in the field of fiber-reinforced composite materials and the successor of the former working group “rCF applications”. It aims at finding solutions to improve the circularity and sustainability of composite materials.

This Kick-off event marks the start of the activities in a new holistic way, accounting for the main sustainability needs of composite materials.

Agenda	Moderation: Dr. Bastian Brenken, CU Nord
<b>13:00</b>	<b>Warmup in CU MixUp.World</b>
13:10	<b>Welcome, news from CU Network and goal of the CU Working Group „Sustainability“</b> Prof. Stefan Schlichter, Head of CU WG Sustainability Dr. Bastian Brenken, CU Nord Dr. Thomas Heber, CU Ost
13:20	<b>Today's industrial approaches to sustainability using CFRP</b> Jan Ohm, Airbus / CTC
13:40	<b>CMC under the aspect of sustainability and resource efficiency</b> Dr. Anna Schneller, Uni Augsburg - MRM
14:00	<b>Status quo circularity CF-concrete</b> Roy Thyroff / Dr. Gabriele Gärtner / Dr. Ingelore Gaitzsch, CU Bau
<b>14:20</b>	<b>Networking in CU MixUp.World</b>
14:40	<b>Renewable raw materials</b> Dr. Barbara Güttler, IVW Kaiserslautern
15:00	<b>Life Cycle Assessment for fiber composites and ...</b> Dr. Andrea Hohmann, Fraunhofer IGCV  <b>... Improving sustainability by design</b> Dr. Robert Kupfer, TU Dresden – ILK
<b>15:40</b>	<b>Discussion and next steps</b>
<b>16:00</b>	<b>End of the event</b>
