UNITED

At Kompozyt Expo in Krakow

JOINT BOOTH

Composites United at Kompozyt Expo

KOMPOZYT EXPO, which is the most important event on fiber composite technologies in Central-Eastern Europe, is entering its 12th round on 4th – 5th October 2023. Once again we offer our members places on a joint stand and a presentation slot for the trade fair conference as part of the cooperation with the Polish Cluster for Composite Technologies.

This year's topics are:

- Modern composite technologies for the reconstruction of Ukraine
- Use of composites in the energy turnaround
- Composites in the circular economy
- Modern composite solutions in boat building
