

## MAI iBIS Südkorea „Recycling, Upcycling & Sustainability“

at **September, 24 2024 / online**

Moderation: Sven Blanck, MAI Carbon & Ji-Young Hwang, Kcarbon

With MAI iBIS - International Business & Innovation Series, we want to give member companies the opportunity to become more visible internationally. For the year 2024, we have selected South Korea as the target country.

Within the framework of short pitches, 3 companies or organizations will present themselves, so that you will receive a total of 6 interesting insights from Germany and South Korea. The focus is on a novel project or an exciting innovation on a specific main topic.

Program	
09:00	<b>Greetings &amp; Introduction</b>
